

Name: William Liu

Age: 13

The problem I chose to take on is anti-immigration. The eagle represents America with hurtful comments hidden on the wings scaring the other birds slash immigrants away. These countries claim they are preserving their culture and will throw around words about immigrants stealing jobs and getting there illegally, when most just want to better support themselves and their families. In order to have the equality that these countries pride themselves on, we need to be more inclusive to immigrants and other people.
